

Tools Required:

3mm hex key
5mm hex key

Dimensions

A: 6-1/4 "
B: 2-1/2 "
C: 3 "

Accessory 71 036:

Material: Wall mount bracket made of aluminum alloy, mounting hardware made of stainless steel.

Notice to the installer for 71 036 Accessory:

- For use with BEGA LED Facade Floodlights.
- For end-to-end luminaire configuration with jumper cable 77 285 - ETE, (1) wall mount bracket may be used between luminaires.
End-to-end configuration: (71 036 Quantity) = (Luminaire Quantity) + 1
For all other luminaire spacing configurations, (2) wall mount brackets are required per luminaire.
All other configurations: (71 036 Quantity) = (Luminaire Quantity) x 2
- This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

Accessory 71 036 - installation:

- Remove mounting plate from bracket by unscrewing (2) 3mm hex head screws from bottom side of bracket as shown in Figure 1.
- Attach mounting plate to finished wall surface using mounting hardware (by others).
See Figure 2 on following page for required spacings between wall mount brackets.
- Replace wall mount bracket onto mounting plate. Tighten (2) 3mm hex head screws from bottom side of bracket to secure.
- Remove mounting base of LED facade floodlight by loosening (2) 5mm captive hex head screws.
- Fit luminaire mounting base onto threaded screws of wall mount bracket. Secure with (2) hexagon nuts (supplied by BEGA) inside of luminaire mounting base.
- Replace luminaire onto mounting base and tighten (2) 5mm hex head screws to secure.
