Application

Light building elements are luminous design features for public areas. These luminaires are ideally suited for delineating and structuring interior and exterior spaces such as landscape areas, plazas, building entrances, and atria. The top casting is adjustable from 0° to 10° for a more forward throw distribution when required.

Materials

Clear safety glass

Marine grade, copper free (≤0.3% copper content) A360.0 aluminum alloy Extruded aluminum pole shaft

Covered handhole with hardware and grounding provisions provided High temperature silicone gasket

Mechanically captive stainless steel fasteners

Silicone applied robotically to casting, plasma treated for increased adhesion

Integral surge protector

Galvanized steel anchorage

Pure anodized aluminum reflector

NRTL listed to North American Standards, suitable for wet locations

Protection class IP 65 Weight: 83.7 lbs.

EPA (Effective projection area): 9.6 sq. ft.

Electrical

120-277VAC Operating voltage -30° C Minimum start temperature 39.2 W LED module wattage System wattage 43.5 W

0-10V dimming down to 1% Controllability

Color rendering index Ra > 80Luminaire lumens 4781 lm 60000 hrs LED service life (L70)

LED color temperature

4000K (K4) 3500K (K35) 3000K (K3) 2700K (K27)

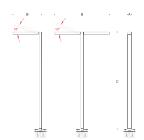

BEGA can supply you with suitable LED replacement modules for up to 20 years after the purchase of LED luminaires - see website for details

Finish

All BEGA standard finishes are matte, textured powder coat with minimum 3 mil thickness. BEGA Unidure® finish provides superior fade protection in Black, Bronze, and Silver. BEGA standard White is a super durable polyester powder. Optionally available RAL, custom, and premium colors provided in polyester powder and/or liquid paint.
